### Amendment

In response to the final Office Action dated February 12, 2003, please amend the above-identified application as follows.

### In the Claims:

Claim 1 has been amended to read as follows:

1(Twice Amended). A gate valve comprising:

an elongated body;

a fluid flow passage which extends generally longitudinally through the body and includes at least a lateral first branch connected to a longitudinal second branch:

a gate cavity which is formed in the body and which communicates with both the first branch and the second branch;
